

Stellar Vision 31 Owner's Manual

**High Power COB LED
10-30V**

Power Requirements

Stellar Vision series light bars are designed to be powered by 10-30 volt DC.

Installation

The permanent mount version includes only a wire pigtail with three wires
 Red = +VDC, Black = Ground, Blue = +VDC (Function Change)
 You will need one on/off switch and one momentary switch (not included).
 We recommend the all in one Pro LED SW3 switch which wires as follows:

1. On / Off switch
 Red wire = +VDC Black wire = Ground
2. Momentary switch
 Red wire = +VDC Black wire = Ground
 Blue wire = +VDC (Function Change)

Changing Flash Patterns

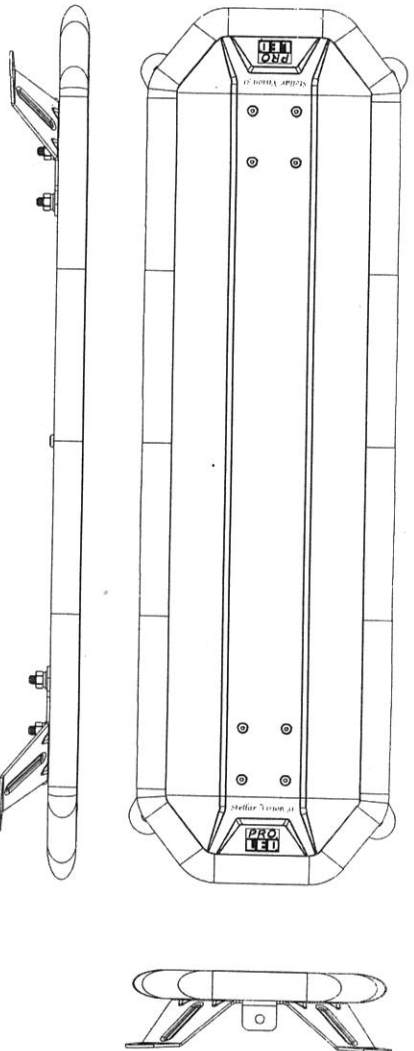

Pressing the momentary switch for 0.5 to 2 seconds will cause the light to switch to the next pattern. Pressing the momentary switch for 5.0 seconds will reset the light to go back to the first pattern.

Warranty

Pro LED warrants the Stellar Vision series lights against defects in material or workmanship for a period of 1 year from the date of purchase or delivery.
